

Title: Good morning midnight

- Verse 1:** When the road you walk gets to hard
And you find it much to steep
And thoughts are racing through your mind
You find it hard to sleep
When you've had enough of push and pull
And you're tired of counting sheep
- Chorus:** Good morning midnight wandered when you'd show
Good morning midnight you always seem to know
When everything is falling down
You'll always be around
Good morning midnight my friend
- Verse 2:** I wander what you're doing now
And if you are aware
Of what it is you do to me
And even if you care
So I turn the TV off
And I start to climb the stairs
- Chorus:** Good morning midnight wandered when you'd show
Good morning midnight you always seem to know
When everything is falling down
You'll always be around
Good morning midnight
Good morning midnight
Good morning midnight my friend
- Bridge:** This life can be confusing nothing's black or white
But it's no use you thinking in the middle of the night
For nothing will be solved till the morning light
When you can say good night, good night midnight
- Chorus:** Good morning midnight wandered when you'd show
Good morning midnight you always seem to know
When everything is falling down
You'll always be around
Good morning midnight
Good morning midnight
Good morning midnight my friend
- End:** Good morning midnight
Good morning midnight
Good morning midnight my friend
